Premium game mechanics can also be implemented in free games. However, due to the fact that all premium features are only available in Builder's Club, in most cases they will if there is no way for the developer to observe this from a third-party mod or script perspective, then it can only be done via a Builders Club Premium.[54]

On May 24th 2019, ROBLOX announced another update for their Studio 2.1 version. This update, known as "Studio 2.1.1", was released to the public on May 31st 2019.[98] Like many other platforms, ROBLOX also has an adult chat system. This is usually used by roleplayers and other users who wish to talk about mature topics freely. However, players have abused this feature by advertising Roblox pornography websites or trolling innocent users.[99] Some users have also used the system to claim that their username is "Not suitable for children" or use inappropriate usernames in order to get attention from others.[100] It is unknown whether ROBLOX will ever remove this feature from their platform.

ROBLOX also shares user information such as email addresses with any business partners that are directly involved in the provision of ROBLOX services, such as developers and advertisers. ROBLOX reserves the right to send or share non-personal information with third parties in order to assist them in providing accurate behavioural advertising and targeting.

ROBLOX Studio 2.0: On December 28th 2018, ROBLOX announced a new version of their Studio known as "Studio 2.0". The company claims that it is meant to be a new version of their previous releases which contains many improvements and better tools. It also allows users to earn cash if they choose to sell their items in the catalog.[91] On January 1st, 2019, ROBLOX updated the game and added a feature which allowed users to get an early access for Studio 2.0.

I really liked playing my own games because it was fun to design a new world for my friends and myself. In my game I could make up anything I wanted. I could add trains, people, animals and pretty much anything else you can think of. I also liked making my own avatar because it gives me a lot of choices in making the way they look. Another thing I was really interested in was Roblox role play which is basically acting like someone else for a little while. You can choose one of your friends or even make up a new person and act like them until you want to stop again. This is good for kids because they get to learn how to act like they're someone else. It's also good for when they have to act in school and it can teach them a lot of things.
